Kryvyi Rih National University

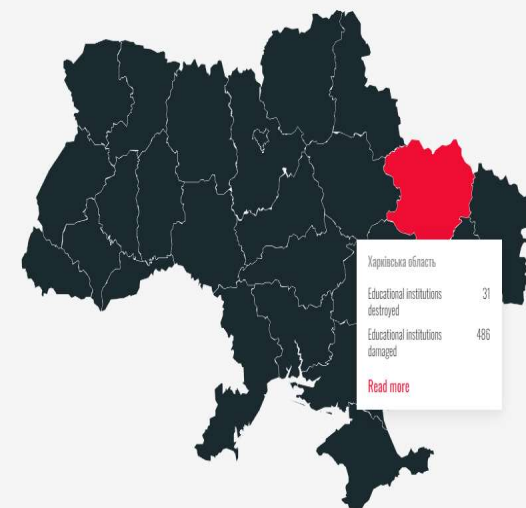

<http://www.knu.edu.ua>

Since the founding on October 4, 1922, Kryvyi Rih National University is still a powerful regional institution of higher education in the Dnipropetrovsk region.

Special site with an interactive map of the destructions created by The Ministry of Education and Science of Ukraine

7 MILLION CHILDREN OF WAR IN UKRAINE

MORE

2243 INSTITUTIONS DAMAGED 285 TOTALLY DESTROYED

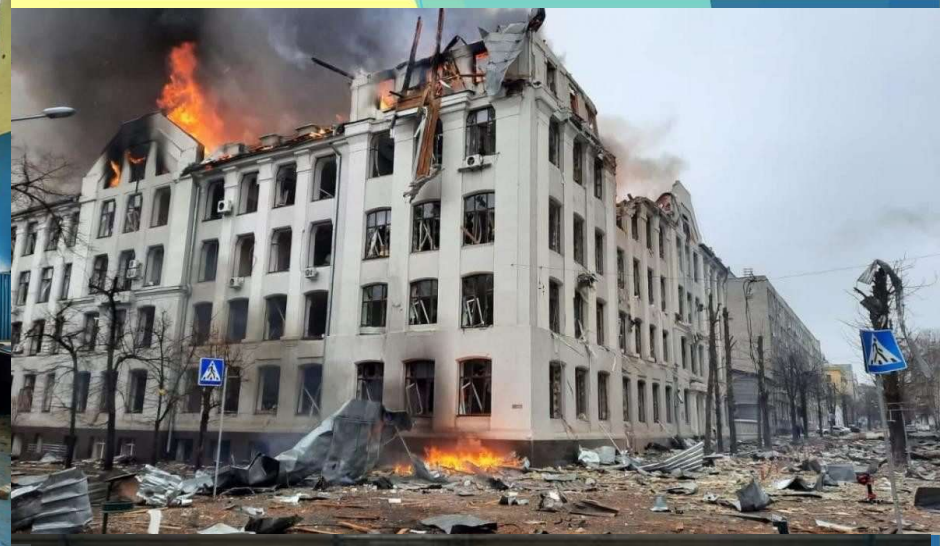

2528 education institutions have suffered bombing and shelling, - and 285 of them have been destroyed completely.

The aggressor says it is only military objects of our country that are struck. The Ministry of Education and Science has collected numerous facts and arguments to refute this statement: the Russian troops destroy schools and universities, kindergartens and orphanages.

On this page we will update information on the number of destructions caused to Ukrainian education institutions due to the Russia's attack on Ukraine.

Internationalization of Kryvyi Rih National University

Main directions of internationalization:

- Involving students, teachers and scientists in the global exchange of knowledge and experience.
- Development of international cooperation with universities and other scientific institutions abroad for joint research and development of new projects.
- Increasing international mobility of students and teachers in order to gain additional experience, open up new horizons and develop professionally.
- Increasing the international competitiveness and attractiveness of higher education in Ukraine.
- Development of cultural exchange and promoting understanding and respect for different cultures and traditions.

Internationalization of Kryvyi Rih National University

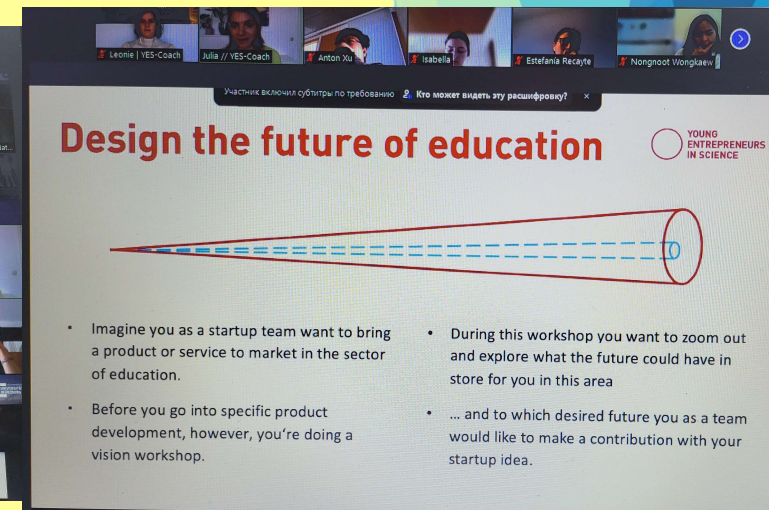

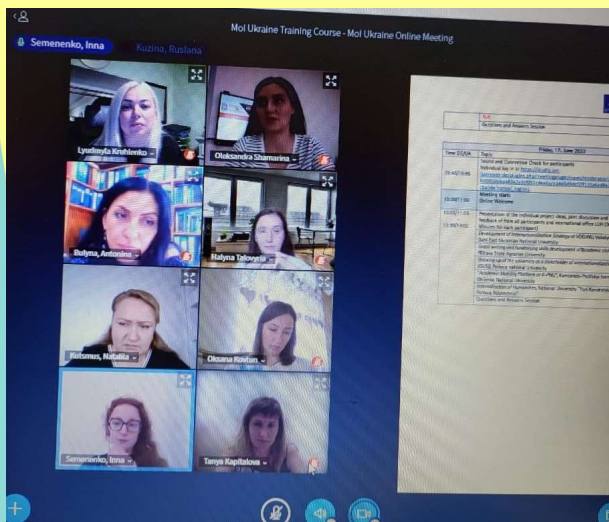

International projects 2022-2023:

- Development of practically oriented student-centered learning in the field of modelling of cyber-physical systems/**CybPhys** Erasmus+
- University teachers' certification centers: innovative approaches to promotion teaching excellence/**UTTERLY** Erasmus+
- Personalized learning model based on the virtual learning environment of intelligent teaching "Learning without limitations"/**SMART-PL** Erasmus+
- Development of a model and common information space of virtual exchange programs/**MOVEx** Erasmus+
- Management of internationalisation and German-Ukrainian academic cooperation 2022-2023/**DAAD**

Internationalization of Kryvyi Rih National University

Cooperation with German higher education institutions 2022-2023:

- On 3rd of August, 2022 the representatives of Kryvyi Rih National University took part in online intercultural seminar „Understanding the Germans”, held by Ms Kerstin Sommer, head of FAU (Friedrich-Alexander-Universität Erlangen-Nürnberg) Welcome Centre. We took a look at those things which are typical of Germany and which can cause problems for international people (e.g. communication; the concept of time; the importance of rules and regulations) and spent an entertaining time discussing how to successfully deal with the Germans.
- online workshop «From Science to Business» organized with the support from the Federal Ministry of Education and Research (BMBF) and partners from University of Würzburg (15 -16.12.2022)

Cooperation with German higher education institutions 2022-2023:

BaTEG Summer School 2022 Zwischen Kulturen, Konflikten, und Kommunikation

What is the Summer School about?

The desire and need for inter- and transcultural experiences is growing, and while English initially seems to be the rational choice for these experiences, new perspectives open up in the use of specific national languages.

The BaTEG Summer School 2022 on foreign language learning in a global world aims to provide numerous concepts on the importance of foreign language learning and its implementation in schools and academia. In particular, aspects of student mobility in Europe will be addressed, and language learning opportunities will be explored. The BaTEG Summer School will be rounded off by workshops on intercultural pedagogy for dealing with linguistic heterogeneity as well as linguistic and cultural identity formation as building blocks of the European idea of education. We will be focussing on the following topics:

- Language and its social value: varieties, standard languages, second language and language of origin, national stereotypes and taboos in a mobile Europe
- Language and education policy concepts: European, national and regional language policies, the importance of foreign language learning in schools and academia
- (Inter-)cultural education: dealing with linguistic heterogeneity and cultural diversity as elements of a European education
- Student mobility in Europe: subject and foreign language curriculum and validation
- Possibilities and limitations of English as (an academic) lingua franca
- Concepts and offers for language immersion in the academic field

The city of Bamberg

The city of Bamberg is often cited as one of the most beautiful in Germany and has been a UNESCO World Cultural Heritage site since 1993. The city's mediaeval appearance owes significantly to its characteristically Gothic and Baroque architecture.

Today, Bamberg is a lively city with almost 80,000 inhabitants. Thanks to the university and its growing importance as a business location, the city has taken on the role of an intellectual, cultural and economic centre.

The University of Bamberg – Otto-Friedrich-Universität Bamberg

In its current form, the University of Bamberg is still quite young (1979), but the university's chequered history began over 370 years ago.

Today, there are four academic faculties:

- Humanities
- Social Sciences, Economics, and Business Administration
- Human Sciences and Education
- Information Systems and Applied Computer Sciences

BaTEG – Bamberg Teacher Education for a Global World

BaTEG is one of 38 projects funded by the Lehramt.international programme of the German Academic Exchange Service (DAAD), which aims at internationalising teacher education.
